

2. Return Window by Product Category

Nimbus Commerce uses category-specific return windows because different products have different resale, hygiene, safety, and inspection requirements. The return window starts from the **confirmed delivery date**, not the order-placement date, unless a product-specific promotion explicitly defines another start date.

2.1 Standard Return Window Table

Product category	Standard return window	Typical condition	Refund/exchange
Clothing	30 days	Unworn, unwashed, tags attached	Refund or exchange
Footwear	30 days	Unworn, original box preferred	Refund or exchange
Bags & accessories	30 days	Unused, original condition	Refund or exchange
Electronics	14 days	Complete accessories and serial number intact	Refund; exchange where available
Small appliances	21 days	Clean, complete, no misuse	Refund or exchange
Large appliances	14 days	Installation/use requirements satisfied	Refund/replacement subject to inspection
Furniture	14 days	No assembly damage or misuse	Refund/exchange subject to pickup
Beauty — unopened	30 days	Factory seal intact	Refund
Beauty — opened	Generally non-returnable	Hygiene exception	Support review only
Personal-care/hygiene products	Non-returnable unless defective	Unused/sealed where eligible	Replacement/refund for defect
Sports equipment	30 days	Unused, safe condition	Refund or exchange
Toys	30 days	Unused and complete	Refund or exchange
Books	30 days	Good condition	Refund or exchange
Digital products	Generally final sale	Defect-only claims	Replacement/refund for qualifying defect
Personalized/custom products	Final sale	Defect or fulfillment error exception	Replacement/refund
Gift cards	See gift-card policy	Unused where applicable	Limited support review

2.2 Clothing and Footwear

Clothing and footwear may be returned within 30 calendar days of delivery. Items should be unworn, unwashed, free of odors, stains, pet hair, or other signs of use, and should retain original tags when tags were supplied.

Shoes should be tried indoors on a clean surface. Excessive wear to soles may make the item ineligible for a standard change-of-mind return, although manufacturing defects remain subject to the applicable defect and warranty process.

2.3 Electronics

Electronics have a 14-day standard return window. The product must include required accessories, manuals, adapters, and other supplied components. Nimbus Commerce may verify serial numbers and may require a device reset or diagnostic inspection before accepting a refund.

A device that becomes defective after the standard return period is normally handled through the applicable warranty process rather than the standard change-of-mind return process.

2.4 Beauty and Personal Care

Unopened beauty products may normally be returned within 30 days. Products whose protective seal has been broken may be excluded for hygiene reasons unless the claim concerns a defect, contamination, incorrect item, or fulfillment error.

Customers should not send leaking, contaminated, or unsafe products through ordinary return channels without first contacting support.

2.5 Furniture and Large Items

Furniture returns normally require a scheduled reverse pickup because of size and handling requirements. The customer must not disassemble or alter a product in a way that prevents safe inspection unless the return instructions explicitly permit disassembly.

Assembly damage caused by the customer is not treated as a normal return reason. Manufacturing defects, transit damage, or incorrect items follow the damaged-item or wrong-item process.
