

11. Size-Exchange Policy

Size exchanges apply primarily to clothing, footwear, and selected wearable products.

A size exchange may be requested within the category's return window. The original item must normally be unworn, unwashed, and in resalable condition.

11.1 Exchange Process

1. Customer selects the size-exchange option.
2. System checks eligibility.
3. Requested replacement size is reserved if available.
4. Return shipment is initiated.
5. Returned product is inspected.
6. Replacement is dispatched according to exchange rules.

If the requested size is unavailable, Nimbus Commerce may offer a different size, store credit, or refund.

11.2 Price Difference

For an exchange within the same product and model, Nimbus Commerce normally does not charge a price difference caused solely by a size variation.

If the customer changes to a different model, color, or product, the transaction may be processed as a return plus a new purchase.

11.3 Footwear

Shoes must be tried indoors and returned with the original box where possible. Visible outdoor wear can make a standard size exchange ineligible.
