

20. Gift Card and Store Credit Policy

Nimbus Commerce gift cards may be used for eligible purchases and are generally not redeemable for cash.

Gift cards cannot normally be transferred between accounts after redemption. Customers who have accidentally purchased an unused gift card should contact support promptly; cancellation may be considered before redemption depending on the gift-card terms.

Store credit issued as a refund is linked to the customer's account and cannot normally be withdrawn as cash.

If an order paid partly with gift-card balance is returned, the gift-card portion is normally returned to the same gift-card or store-credit balance, while any remaining payment-method portion follows the applicable refund process.

Lost physical gift cards require proof of purchase and may be subject to identity verification before replacement.
